Environmental Management System

System Documentation Training Matrix

- All OLL's, Contractors, Suppliers and Service Providers shall be responsible for ensuring that their workers (including Sub-Contractors, etc.) have received relevant training, and that records of training are maintained and available upon request.
- "X" indicates initial one-time training is required
- A numerical value (e.g.: "3") indicates initial training is required as well as the re-training cycle associated with the program, in years.
- * If circumstances don't allow for presentation of the EP1GA module, the *Forest Operations Handbook* may be distributed and reviewed in its place to satisfy the EP1GA training requirement
- The training requirements noted above are a summary of minimal additional training requirements deemed as being necessary within the EMS; to minimize adverse impacts on the environment and to enhance safety in the workplace, and do not preclude any and all legally required training related to workers responsibilities.
- A Qualified Logging Professional (QLP) requires the appropriate EMS, WHIMIS, Worker Health and Safety Awareness, Mechanized Core, SFI Awareness and other legally required training.

H&S Awareness – Supervisor and Worker Awareness Training in 5 or 4 steps

MHEO Certification – Mechanical Harvesting Equipment Operator - MAESD Module Training Program

FPRCEO Certification – Forestry Pits & Roads Construction Equipment Operator - MAESD Module Training Program

Cut & Skid Certification – Cutter Operator and Cable Skidder Operator - MAESD Module Training Program

TDG – Transportation of Dangerous Goods
